

# BALWI INC.

---

Serving Engineering Solution

# Our Profile

Balwi Inc. was founded in 2012 in Montreal. Over the years, thanks to our partners and our engineering department, we gained experience in designing and manufacturing custom products in various sectors and industrial markets.

It brought us reliable and innovative solutions for existing products and new products according to the needs of our customers.

We supply in different markets such as: public, mining, construction, transport and various other sectors. We have developed many products in the water safety and transportation sectors that we have successfully delivered on time.

Since the creation, we have been proud of our commitment to support our customers in their development. Our partners and their knowledge helped us develop a strong structure in the North American and international markets.

We have a solid base in India and Turkey for all types of manufacturing forged products such as die casting, heavy and light forging, machining products, and manufacturing products. We have our own research team for innovative products.

We are able to deliver your products on time, because we have a strong logistics team for shipping and receiving your products. We can also offer you several delivery options according to your requirements.

Choosing Balwi Inc. means choosing quality and safety for your trades with India.

## Our Mission

Our mission is to serve our clients by providing advanced, fast track and reliable hi-tech engineering solutions that improve our client's businesses and facilitate operations with smarter, safer, sustainable and state-of-the-art engineering marvels.

## Our Vision

It is our vision at Balwi Inc. to be recognized and preferred by industries as the most trusted and prominent people-driven engineering solution provider.

# Service What We Offer

## Engineering Solutions

By doing business with 'Balwi Inc' you have access to our group of the most knowledgeable engineers to obtain complete engineering solutions that will not only meet your most complex needs, but you will help develop your product smoothly.

## Safety Products

Security is the most essential and critical aspect for any organization. At Balwi Inc, we offer the development and manufacture of premium government approved products over existing and non-existing products in the most economical and optimized manner to ensure safety for valuable employees in your organization.

## Custom Products

If you need a custom design or an upgrade to an existing product, you can count on us. With an emphasis on quality, safety and the environment, we design products that meet your needs and exceed your expectations.

## Manufacturing

Balwi Inc has partnered with several world class production units around the world. By choosing Balwi Inc, you are opening the door to take advantage of these factories to manufacture products of all sizes, shapes and complexity with superior quality and very competitive prices.

## Import Export

Balwi Inc offers you import / export facilities to and from almost any part of the world with the assurance of on-time delivery and the most competitive price.
